

SPECIFICATION AMENDMENT

Amend Paragraph [0041] to read as shown below:

[0041] A preferred sulfide is an alkyl phenol sulfide having the formula

wherein each x is independently a number between 1-10, y is a number between 1-50, preferably 1-20, and R⁹, R¹⁰ and R¹¹ are each 1,1-dimethylpropyl. A series of sulfides having such a formula are sold by ATOFINA Chemicals, Inc. under the trademark Vultac®.
